DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

The term "high degree" in claims 1, 29 and 33 is a relative term which renders these claims indefinite. The term "high degree" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

The examiner suggests that Applicant replace the term "high degree" with the expression "a correlation coefficient with an r^2 value of 0.8 or higher", thus making the claim definite. This expression has an antecedent basis because the original disclosure contains the expression "a correlation coefficient with an r^2 value of 0.8 or higher" in claim 7.

Allowable Subject Matter

2. **Claims 1, 29 and 33 would be allowable** over the prior art of record if the phrase "a high degree of correlation" in each claim were to be replaced with the phrase "a correlation coefficient with an r^2 value of 0.8 or higher". Claims 2-12, 16-18, 21-28, 30 and 31 would then be allowed due to their dependency status to independent claims 1 and 29.

Claim 32 is allowable as it stands.

Claims 1-12, 16-18 and 21-33 are then allowable over the art of record.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
